SAFETY DRIVE AUGUST - 2/2025

Sub: Divisional Safety drive No:04-Inspection of Emergency Crossovers &
Rusty rails-reg
Ref: DRM/SC Message

In connection with the above subject, it is advised to conduct a Special Divisional safety drive on Inspection of Emergency Crossovers & Rusty rails at all stations for 15 days from 05.08.25 to 19.08.25 involving Officers and Supervisors of Engg, S&T, Optg and safety branches. The following items to be checked during the drive period and irregularities/deficiencies noticed to be attended on priority.

Sl No	Description	No of checks done	Deficiencies noticed	Corrective action taken
1	Checking of Emergency Crossover points daily once as per SWR Appendix-D.			
2	Ensure physical clearance before allowing any train movement over rusty rail track circuit portion.			
3	Check whether Rusty rail collars /Caps on panels whenever there is no movement on track circuited lines for more than 24hrs are being placed or not.			
4	Any other irregularities/deficiencies noticed			

After completion of the drive a consolidated report from each branch should be submitted to the undersigned by **10.08.2025** to enable this office for compilation of data and further forwarding to PCSO office and DRM/SC.
