SAFETY DRIVE May - 3 /2025

Sub: Divisional Safety Drive No2: Removal of Loose material at Halt Stations-reg.

Ref: As advised by DRM/SC during Safety Meeting

It is noticed during foot plate and safety inspections that loose and released materials are lying on platforms and nearby track at HALT stations where no manning is available and HALT stations are closed for public. Miscreants/unauthorized persons are keeping these materials on track at some of the locations to jeopardize safety of Railway assets and travelling public.

In view of the above as advised by DRM/SC a fortnight safety drive from 29.05.2025 to 11.06.2025 involving Officers and supervisors of Engg, S&T, TRD and Safety branches to remove the loose materials available at HALT stations where no manning is available and HALT stations are closed for public. After completion of the drive a consolidated report from each branch to be submitted to the undersigned as per the format given below by 13.06.2025 for further appraising to DRM/SC.

S No	Summary	Nos/details
1	No of inspections done by Officers
